PUBLIC ELEMENTARY AND HIGH SCHOOLS

Under classification and date the year given is that of the initial accreditment. The classification represents the present rating of the school. The ratings for elementary schools are given in two columns, one for those schools that have met the requirements for the new standards, and the other for those schools that are still rated under the old standards. The "C" classification is a one-year rating and indicates those schools which have met all requirements except average daily attendance. "R" indicates recognition of schools which have met all requirements for accreditment except number of teachers. All schools not rated are classified as non-standard and hence are left blank (leader lines) in the rating columns. Where an elementary or high school is operated independently, the other column is indicated by two ruled lines (____ ____). A dagger (†) indicates schools that have been removed from the accredited list in 1939. In the case of high schools an asterisk (*) denotes membership in the Association of Colleges and Secondary Schools of the Southern States. For Negro schools the asterisk (*) indicates approval by the Southern Education Association.
